Corporate Citizenship

Giza Systems Foundation (GSF)

Giza Systems Foundation is a civil educational non-profit foundation seeking to employ technology for the advancement of education and society as a whole.

The Foundation aims to marry technology with education to develop a self-directed, better-informed, tech savvy and socially conscious individual that can contribute positively to the development of his or her community.

GSF aims to become the glue that brings and holds together the existing ecosystem – civil society, private sector, universities, youth organizations – to participate in the development of the society and economy.

Our strategy is built around three anchors: youth enablement, reducing inequalities and responsible consumption.

These anchors also address and work towards the UN-SDG's (United Nations Sustainable Development Goals for 2030) numbers 4, 8, 9, 10, 12, 17.

4 QUALITY
EDUCATION

8 DECENT WORK AND
ECONOMIC GROWTH

9 INDUSTRY, INNOVATION
AND INFRASTRUCTURE

10 REDUCED
INEQUALITIES

12 RESPONSIBLE
CONSUMPTION
AND PRODUCTION

17 PARTNERSHIPS
FOR THE GOALS
